Specifications

Technical specifications

- Starting time: 0,2 s
- Power factor: 0,6
- Mercury content: 1,5 mg
- Lifetime of lamp: 8 year(s)
- Rated lifetime: 8 year(s)
- Rated power: 12 W
- Wattage: 12 W
- Lamp dimension (width): 47 mm
- Wattage equivalent: 56 W
- Color rendering index (CRI): 80
- Lamp current: 80 mA
- Lamp dimension (height): 106 mm
- Lumen: 685
- Rated luminous flux: 685 lm
- Number of switch cycles: 5000
- Color temperature: 6500 K
- Lifetime of lamp: 8000 hour(s)

- Rated lifetime: 8000 hour(s)
- Lumen maintenance factor: 0.7 (at the end of the nominal lifetime) %
- Voltage: 220-240 V
- Warm up time 60% light output: 5 - 30 s
- Energy efficiency label: A
- Color: Cool Daylight
- Fitting/Cap: E14
- Dimmable: No
- Shape: Spiral
- Light effect / finish: White
- Wattage standard bulb: 56 W

Cleaning by breakage/disposal

- Cleaning: Follow the advice for proper clean up*
- Disposal: Follow the instruction for disposal as special waste**

Highlights

Very high light output

The light output of these lamps is higher than of most standard energy saving lamp. It gives you a high amount of light you want for activities, such as reading your favourite book or helping your kids with their homework.

Up to 12 years lifetime

Modern technologies have a longer lifetime than standard bulbs. With 12 years lifetime, one lamp replaces 12 standard bulbs. So they save money and last longer, year after year. The lifetime is based on the average usage of 2,7 hrs per day or 1.000 hrs a year. This average is influenced by the usage during different seasons (dark winter vs light summer), the weather conditions (sunny vs rainy dark day) and on the room where the lamp is used (short usage in bathroom vs long usage in living room).

Saves money & energy up to 79%

This bulb saves money and up to 79% energy compared to your standard bulb. It pays for itself and saves you money year after year. So reduce your energy bill and start saving Now.

* Breaking a lamp is extremely unlikely to have any impact on your health. If a lamp breaks, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a closed plastic bag and offer it to the local waste facilities for recycling. Do not use a vacuum cleaner.

** Compact fluorescent lamps have to be treated as special waste, they must be offered to the local waste facilities for recycling. The European Lighting Industry has set up an infrastructure, capable of recycling mercury, other metals, glass, etc.
